

THE CONDON GLOBE.

THURSDAY, JANUARY 31, 1901.

NOTICE.

The Globe invites correspondence from all sections of Gilliam county. We aim to make this paper the leading news medium of the county and in the city of Condon. We are especially interested in the news of the people. Correspondence must be signed by the writer, but need not be published. It is an evidence of good faith, and the editor assumes no responsibility for opinions expressed by correspondents.

ABOUT RAILROADS.

The agitation for a railroad into the interior of Gilliam county, which was first urged by the GLOBE, is beginning to bear some fruit. Already several enthusiastic meetings of citizens have been held in Condon, at which all sections of the county were represented by leading men of the different neighborhoods and very satisfactory progress has been made towards the organization of a company.

At a meeting held two weeks ago last Saturday a committee of five incorporators was elected to proceed with the incorporation of a railroad company and to secure information as to the best method of procedure. This committee in turn selected two of their number to go to Portland and secure information in regard to the project and to have articles of incorporation drawn up. The committee, through their representatives, submitted a satisfactory report to a mass meeting of citizens last Saturday and reported good progress. The articles of incorporation have been drawn by Judge A. S. Bennett, of The Dalles, but as it was found that it is necessary to name a definite starting point before the incorporation papers can be filed, a committee of four competent men was appointed at the last meeting to make a preliminary survey or view of the most feasible route from the Columbia river to Condon in order that the papers may be properly filed. These men are now at work and will no doubt be ready to report within a few days, when the papers will be filed, the stock books opened and the company will be ready for real business.

And now comes President Lytle, of the Columbia Southern R. R. Co., and in an interview in the Portland Telegram, of recent date, gives out the following big gobs of railroad wisdom. We quote the article entire:

"President Lytle, of the Columbia Southern, says that Condon, the county seat of Gilliam county, has figured in his plans for Central Oregon. Considerable money has already been spent in running surveys through the surrounding country and more extensive plans are under consideration for its development. It is understood that the Columbia Southern would have built several miles of railroad this winter but for the present lawsuit. It has extensive plans for

the opening of Central Oregon, but can do nothing, it is claimed, so long as the company is tied up in litigation.

Condon is situated in such a position that it is no easy matter to reach the place by rail. According to surveys already made, it would seem that the best route would be by extending a branch from the Columbia Southern, near Guthrie, eastward. That line of survey strikes Three Tree Canyon, follows that down to the John Day, then up the John Day until a favorable break in the mountains is found for getting out of the riverbed over into Condon Valley. The other route has been surveyed from Arlington south for a line into Eastern Oregon. It follows Rock creek and presents some difficulties in the way of grades. Another line has been surveyed eastward from the terminus of the Columbia Southern through Fossil, it might prove practicable to give Condon railway outlet by running a branch north from this latter line. In any event the Columbia Southern will study the situation from every side and if there is then enough to warrant a line it will build one over the most feasible route."

President Lytle seems to have got a pretty good action on himself all at once, since the movement for a citizens' railroad company in Gilliam county has begun to assume definite shape. He attempts to excuse himself, or his company, for not having built "several miles of railroad this winter" because of certain litigation in which his company is involved. The question might be asked, "To what extent is President Lytle responsible for that litigation?" and the thought might be suggested that litigation is one of the rocks which the people of Gilliam county desire to steer clear of in their transportation problems, which may be one reason why they desire to build their own railroad.

Mr. Lytle says that "Condon is so situated that it is no easy matter to reach the place by rail." He also tells us of different surveys which his company has had made to determine the best route for getting into the "Condon Valley." Wouldn't that kill you? What kind of whiskey did his surveyors use while performing these feats of engineering when it was determined that it is a difficult matter to build a railroad into the "Condon Valley?" Everybody who knows anything of this country, even by glancing at a map of the county, during a moment of sobriety, knows that Condon is miles from any kind of a "valley;" that in fact, this entire section belongs to the high plateau or table lands of Eastern Oregon. President Lytle should consult a map or some old settler before again publishing his lack of knowledge of this country to the world through a newspaper interview.

But his last plan for the relief of the "Condon Valley" is really humorous. The dear, kind man, in the goodness of his heart really suggests that he might be induced to build a railroad from Fossil north to tap the "Condon Valley."

A Mother's Favorite.

Chamberlain's Cough Remedy is the mother's favorite. It is pleasant and safe for children to take and always cures. It is intended especially for coughs, colds, croup and whooping cough and is the best medicine made for these diseases. There is not the least danger in giving it to children, for it contains no opium or other injurious drug and may be given as confidently to a babe as to an adult. For sale by The Hudson Pharmacy—C. W. Crofield, mgr.

SPECIAL SALE OF DRESS SKIRTS.

We also pay highest prices for

HIDES, PELTS AND FURS. DANOSKY BROS.

MODEL BUILDING, LOWER MAIN STREET OPPOSITE HENSHAW'S STORE.

This suggestion is, of course, "ducks" for Fossil, and the Journal does right in reproducing the "interview," with appropriate headlines; but the consensus of opinion among Gilliam county people seems to be that a Condon (so-called) newspaper, which would reprint such an interview without comment, and thus tacitly agree to its suggestions, has been well named a Wheeler County Annex. It certainly is not looking after the interests of the Gilliam county wheat grower.

It may be added here that it is a matter of current report that Sherman county farmers are hauling wheat this winter 20 miles or so along the line of the Columbia Southern because they cannot afford to pay the high freight rates demanded, and a gentleman who buys and ships large quantities of livestock from this and adjoining counties informed the writer some time ago that he had recently driven a full train load of cattle from Shaniko to The Dalles for the same reason. If these allegations are well founded, and we have no reason to doubt them, we say God pity the farmers of Gilliam county if their 2,000,000 or 3,000,000 bushels of wheat has to be hauled to market via Fossil and Shaniko.

President Lytle's "interview" will fall short of the mark. It will have no effect on the Columbia Inland promoters, for they are the people.

NEW USE FOR SLUGGERS.

John P. Robertson, the Marion county reformer, has found a use for sluggers. He writes the Salem Statesman:

"Uncle Sam needs, and should at once enlist, about a half-dozen John L. Sullivans, Jeffries, Fitzsimmons and Corbets and send them to the military academy at West Point as fourth class men. That their mental deficiency would ever prevent them from getting beyond the fourth class is no valid objection—rather a commendation. That their manners might not be the best—rather uncouth—and that they would be inclined to 'sass' or 'jaw back' at the brutalized first-class men, is all the better. Then allow the first classes to 'call' them out whenever they feel their 'dignity' has been insulted. A few wholesome lessons administered would have a wonderfully civilizing effect."

Beat Out of an Increase of His Pension.

A Mexican war veteran and prominent editor writes: "Seeing the advertisement of Chamberlain's Colic, Cholera and Diarrhoea Remedy I am reminded that as a soldier in Mexico in '47 and '48 I contracted Mexican diarrhoea and this remedy has kept me from getting an increase in my pension, for on every renewal a dose of it restores me." It is unequalled as a quick cure for diarrhoea and is pleasant and safe to take. For sale by The Hudson Pharmacy—C. W. Crofield, mgr.

The death of ex-Governor Mount, of Indiana, is an exceedingly sad event, in view of the fact that he had reached the point in his life wherein he was ready to retire from its active duties and pass his remaining days in peace among his own. He was succeeded in the Executive office last Monday, and, having settled all to his satisfaction, would have retired to his farm in a few days with the purpose of dwelling apart from politics for the rest of his life. There is nothing to regret, however, in the manner of his passing. Life was sweet to him until his latest hour, and he passed away peacefully and without apprehension of danger to himself or sorrow at parting from his family and friends—an ideal ending of life when the end is due. Mrs. Barbauld, a gentle English poetess of a past generation, expresses a wish that thousands feel for themselves, but from which they usually recoil for their friends, in the following lines:

Life, we've been long together,
In pleasant and in cloudy weather;
'Tis hard to part when friends are dear,
Perhaps 'twill cost a sigh, a tear.
Then steal away, give little warning;
Choose thine own time,
Bid not good night,
But in some happier clime
Bid me good morning.
—Oregonian.

The house has voted \$600 for a life sized portrait of Governor Geer. If the artist charges by the foot for his canvas the legislators are driving a sharp bargain.—Roseburg Review.

His Wife Saved Him.

"My wife's good advice saved my life," writes F. M. Ross of Winfield, Tenn., "for I had such a bad cough I could hardly breathe. I steadily grew worse under doctor's treatment, but my wife urged me to use Dr. King's New Discovery for Consumption, which completely cured me." Coughs, Colds, Bronchitis, Hay Fever, Pneumonia, Asthma, Hay Fever and all maladies of Chest, Throat and Lungs are positively cured by this marvelous medicine, 50c and \$1.00. Every bottle guaranteed. Trial bottles free at Condon Drug Co.'s.

Subscribe for the GLOBE.

To the Consumers of Gilliam County:

We desire to state that we are determined to reduce our large stock of goods and for the next 90 days will make great reductions in all lines for cash.

By referring to your local papers you frequently note the ad. of interior merchants who, with conspicuous signs, say: "We sell at Arlington prices." Is this not evidence that the Arlington merchants must lead in low prices or there would be no need for such statements? Before purchasing your fall supplies or the smaller bills get prices from us.

In agricultural implements we have the favorite Monitor Drills subject to four attachments, viz. hoe, disc, press wheels or shoe.

The Oliver and Flying Dutchman Plows are hard to beat for good clean work, durability and lightness of draft.

It is no longer an experiment to buy a Bain or Stoughten wagon, as they have but few if any competitors when strength and light-running qualities are considered.

If you anticipate treating yourself to a new buggy or hack do not purchase until our new car load of the old reliable Racine rigs reach us, which will be here in September.

When in need of a chop mill, hay press, windmill, sewing machine, or any kind of machinery used on the farm, write us for prices and we will treat you right.

Address all communications to the firm at the old James W. Smith store.
